THIS WHOLESALE CATALOGUE contains a list of all such varieties as are generally used by Florists and Market-Gardeners, and in addition our Specialties and New Introductions of approved merit. Of the host of Novelties brought to notice every year, there are but few, indeed, that possess any intrinsic value. These we avoid, with the exception of such as we find, after careful tests, worthy of introduction.

Full descriptions of all varieties listed in this Catalogue will be found in our General Catalogue, a copy of which will be mailed herewith.

Seeds will be sent postpaid at the prices herewith quoted for ounces and quarter-pounds. When quantities of one-half pound and upward are ordered to be sent by mail, postage at the rate of 8 cents per pound must be added to the Catalogue price.

WM. C. BECKERT,

103 Federal Street, North Side, PITTSBURG, PA.

Florists' Flower Seeds

We devote equally as much care and attention to the department of florists' seeds as to vegetable seeds for market-gardeners. Our stocks are grown for us by the best growers and specialists, both at home and abroad, and entire confidence can be placed in our strains herewith offered, as it has always been our policy to secure the very best obtainable, cost being a secondary consideration. We would specially recommend our strain of **Aster**, **Calceolaria**, **Cineraria**, **Pansy**, **Petunia**, **Primula**, **Stocks**, **Verbena**, **Cyclamen**, **Mignonette**, and all such other seeds as are much in demand by florists.

All seeds here quoted are in trade packets and contain liberal quantities proportionate with ounce price; only such seeds as are used in any quantity are quoted by the ounce. Seeds that are not generally used by florists will be found in our General Catalogue.
